PERSONAL PROJECTS

ROCK_PAPER_SCISSORS GAME

- Developed a dynamic and interactive rock-paper-scissors game using HTML, CSS, and JavaScript.
- Implemented game functionality using JavaScript, allowing players to make their selections by clicking on icons representing rock, paper, or scissors.
- Utilized event handling in JavaScript to capture player input and trigger the game logic, determining the winner based on the chosen options.
- Designed a score system to keep track of wins, losses, and ties, storing the scores in the browser's local storage for persistent data.
- Incorporated a "Reset Score" button to allow users to reset the game score.
- Added an "Auto Play" feature that enables automated gameplay, simulating matches between the player and the computer opponent at regular intervals.
